## TOTAL VALUE OF OIL IMPORTS DURING APRIL-SEPT AT \$63.86 BN

# Cheaper Russian oil helped Indian refiners save \$3.3 bn in H1 of FY24

**SUKALP SHARMA** New Delhi, November 7

**INDIAN REFINERS ARE esti**mated to have saved around \$3.3 billion in the first half of the current financial year (FY24) through their purchases of discounted Russian crude oil, shows an analysis of India's official trade data for April-September. Russia, which used to be a marginal supplier of crude to India before the war in Ukraine, was New Delhi's largest source of oil in April-September, accounting for almost 39% of India's overall oil imports by volume and nearly 36% by value.

India is the world's thirdlargest consumer of crude oil and depends on imports to meet over 85% of its requirement. Crude oil also tops the list of India's merchandise imports by value. With Western buyers cutting oil imports from Russia in the wake of its February 2022 invasion of Ukraine, Moscow started offering deep discounts on its crude. Indian refiners have been lapping up these discounted barrels, catapulting Russia to the top spot

refiners paid for Russian oil the average per-barrel price they paid for crude from all other suppliers put together, the oil import bill would have been \$67.14 billion, shows the analysis by The Indian Express. The value of oil imports from Russia for the period was \$22.84 billion. In terms of volumes, India imported a total of 111.51 million tonne, or 817.35 million barrels, of crude oil in April-September. Oil imports from Russia for the period stood at 43.38 million tonne, or 317.96 million barrels. The average landed price of Russian crude for Indian refiners for the April-September period was \$71.83 per barrel, \$10.32 lower than the average landed price of non-Russian

other supplying nations. In the overall scheme of India's foreign trade, \$3.3 billion may not appear to be a significant amount, but the savings are substantial for the country's major oil importers--Indian refiners like Indian Oil

barrels, as per the analysis. It

translates into an effective dis-

count of 12.6% to the average

price of oil imported from

Corporation, Reliance Industries, Bharat Petroleum Corporation, Hindustan petroleum Corporation, and Nayara Energy. The government releases commodity-wise and country-wise trade data with a lag, and so far, data till September has been made available. While the price of crude oil depends on grades and their prices can vary substantially, the average landed price of crude and import volumes from the supplying countries were used for computations as the government does not release grade-wise data.

In April-September, Iraq was India's second-biggest oil supplier with a market share of 20.4% by volume, followed by Saudi Arabia with a 14.3% share.

Prior to the war in Ukraine, Iraq was India's top supplier of crude oil, followed by Saudi Arabia. In the corresponding six months of last year, Iraq and Saudi Arabia accounted for 24.2% and 17.9%, respectively, of India's crude oil imports by volume. Russia was in the third spot with a share of 15.8%.
